ALABHYA NAGAR

Aspiring Java & Web Developer
Vadodara, Gujarat | +91 90547 97563 | alabhyanagar@gmail.com | github.com/alabhyanagar | linkedin.com/in/alabhya-nagar

PROFESSIONAL SUMMARY

BCA Honors student with a strong foundation in Core/Advanced Java, full-stack web development, and hands-on experience in Data Science, Machine Learning, and Cloud Infrastructure. Proficient in building deep learning models (TensorFlow, PyTorch, CNNs) and deploying workloads using AWS cloud services (EC2, S3, VPC, Lambda). Seeking internships or roles bridging software engineering, backend systems, cloud deployment, and applied AI/ML.

PROJECTS

Neural Network & CNN Image Classification | Python, TensorFlow, Keras, PyTorch, NumPy, Matplotlib

- Developed and trained deep learning models including Convolutional Neural Networks (CNNs) using TensorFlow and Keras.
- Worked extensively with standard datasets such as MNIST for handwritten digit recognition and classification tasks.
- Implemented data preprocessing, normalization, and augmentation pipelines using NumPy and Pandas.
- Visualized training metrics, loss curves, and model performance evaluations using Matplotlib.

Phone Directory Management Application | Java (Swing), JDBC, MySQL

- Developed a desktop-based phone directory application using Java Swing.
- Implemented CRUD operations with JDBC and MySQL for managing contact data.
- Designed database structure to efficiently store and retrieve phone numbers.
- Strengthened understanding of event handling and database integration.

Java Web Applications | Java, JDBC, Servlets, JSP, MySQL

- Developed multiple Java-based web applications as part of academic curriculum.
- Implemented CRUD operations using JDBC with MySQL database integration.
- Built dynamic web pages using Servlets and JSP.
- Applied multithreading concepts in practice programs.
- Tested backend APIs using Postman.

Task Management Web Application (In Progress) | MERN Stack

- Developing a full-stack task management application using MongoDB, Express, React, and Node.js.
- Implementing REST APIs and testing endpoints using Postman.

TECHNICAL SKILLS

Programming & AI/ML: Python, Java (Core, OOP, Collections, Exception Handling), JavaScript (ES6)

Data Science & Deep Learning: TensorFlow, PyTorch, Keras, Pandas, NumPy, Matplotlib, Scikit-Learn (Basic), MNIST Datasets, Neural Networks, CNNs.

Backend & Databases: Advanced Java (JDBC, Multithreading), Spring Framework (Learning), Node.js (Beginner), MySQL, MongoDB (Beginner)

Tools & Platforms: Git, GitHub, Postman, VS Code, NetBeans IDE, Jupyter Notebook, AWS

EDUCATION

Bachelor of Computer Applications (BCA Hons.)
The Maharaja Sayajirao University of Baroda | 2023 – 2027
HSC – 79.6% | Don Bosco High School | 2023
SSC – 83.67% | Don Bosco High School | 2021
